To Whom It May Concern.

Re: Letter of Endorsement for Lighthouse Venture in supporting Mudgeeraba State School Community.

Mudgeeraba State School provides a chaplaincy service, which is approved by the school's Parent and Citizens' Association and is offers support to all students and families. The chaplain is employed through Scripture Union Australia.

Chaplains provide social, emotional and spiritual support to students and the school community. We are inclusive of and show respect for all religious and non-religious beliefs and other stances represented in the school communities.

We are asking for support of the Lighthouse-Venture request to businesses and companies to assist the families and students in need via the Mudgeeraba State School Chaplaincy service.

Your support will be greatly appreciated as families and students that are from low-social economic back grounds are assisted every year. Christmas hampers are an example of the generosity given to local families each year with a growing need.

The timeline is short for preparing and distributing this year's Christmas hampers to families in need and support from community business will help meet the current need.

The MSS chaplain newsletter has previously thanked other community services and businesses for their ongoing support which is distributed to the local community.

If you would like to discuss this matter, please contact the school. Alternatively, you may wish to discuss this directly with the school chaplain, Tony Roberts, via email address. tony.roberts@suchaplaincy.org.au
